

Sport Boat Classification

With the current outdated listing of sport boats in Handicappers Manual part 2 section 8.4, and there being no definition for new sport boats.

Proposed is the following:

8.4. SPORT BOATS

A sport boat is defined as any boat that has any one of the following;

- a sport boat rating {using the Jim Teeters Sport Boat Formula of 1.000 or higher
- a downwind sail area to displacement ratio {using the formula of $SA/(Disp/64)^{2/3}$ measured in feet and pounds, being the standard model} of 63.5 or higher
- an upwind sail area to displacement ratio {using the formula of $SA/(Disp/64)^{2/3}$ measured in feet and pounds, being the standard model) of 37.5 or higher.

For Reference this list would currently include;

11 METER	HOBIE 33	SKUD 18.2-1/2 CF
